The COVID-19 pandemic raises critical questions that all corporations must address:

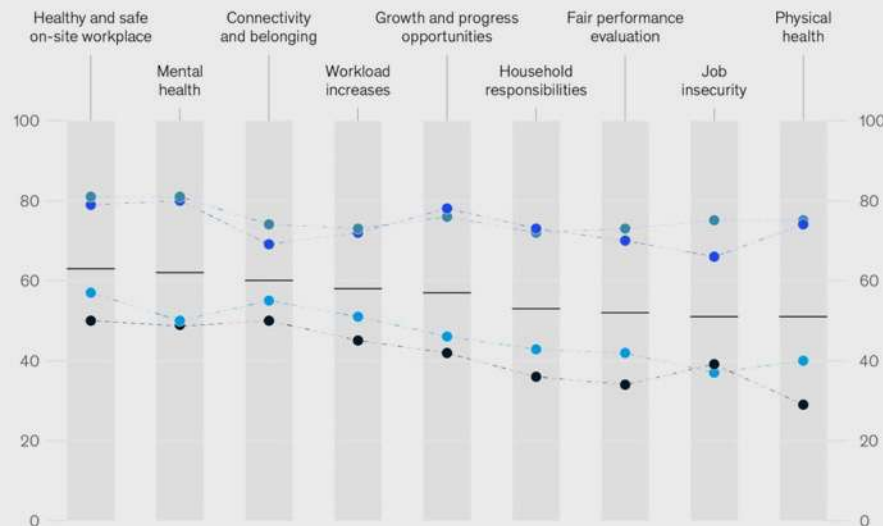

- How do we create a safer **return-to-work environment** for all employees?
- How do we assess the real-time wellness of our workforce in order to promote **business continuity**?
- How do we accommodate increasing state and federal **legislative requirements** for COVID-related data?

WellEntry has answers.

Challenges during COVID-19,* % of respondents who answered 'significant' or 'somewhat'

● Brazil, Mexico ● China, India ● France, Germany, Ireland, UK ● US, Canada — Average, all respondents

All respondents

Note: Countries included in the survey are Australia, Brazil, Canada, China, France, Germany, India, Ireland, Mexico, UK, and US. All respondents, n = 2,656; Brazil and Mexico, n = 406; China and India, n = 641; France, Germany, Ireland, and UK, n = 667; US and Canada, n = 737. *Question: Please indicate which of the following has been challenging for you as an employee during the COVID-19 crisis. Source: McKinsey 2020 Global Diversity, Equity, and Inclusion/COVID-19 Employee Experience Survey

McKinsey
& Company

In McKinsey & Company's 2020 Global Diversity, Equity, and Inclusion / COVID Employee Experience Survey, a **Healthy and Safe On-Site Workplace** was the top-ranked challenge cited among all survey respondents.

Meanwhile, your organization is carefully balancing the needs of your patients with addressing your workforce's legitimate concerns.

A close-up photograph of a female healthcare worker with brown hair, wearing a black t-shirt and a stethoscope. She is smiling warmly at an elderly Black woman who is wearing a black headscarf. The background is a light-colored stone wall.

While many of us enjoy the ability to work remotely, we know that home care and hospice organizations **must continue operating in the field.**

The new vaccines on the way give us hope! However, experts continue to caution us to temper our expectations, because the vaccine is part of an overall **marathon, not a sprint.**

“

A vaccine on its own will not end the COVID-19 pandemic.
We will still need to continue:

- Surveillance
- Testing, isolating & caring for cases
- Tracing & quarantining contacts
- Engaging communities
- Encouraging individuals to be careful

Dr. Tedros Ghebreyesus | Director - General, World Health Organization

☐ Yes ☒ No

Within the past 14 days, have you been in close physical contact (6 feet or closer for at least 15 minutes) with a person who is known to have laboratory-confirmed COVID-19 or with anyone who has any symptoms consistent with COVID-19?

☐ Yes ☒ No

Are you isolating or quarantining because you may have been exposed to a person with COVID-19 or are worried that you may be sick with COVID-19?

☐ Yes ☒ No

Are you currently waiting on the results of a COVID-19 test?

☐ Yes ☒ No

The Problem: How do we create a safer return-to-work environment for our employees?

WellEntry's Solution: The WellEntry Go iPhone and Android app keeps your people safe with:

- Pre-arrival self-screening of employees
 - On-site screening of employees, vendors, and guests
 - Reporting that helps you make informed resource management decisions
-
- ✓ 900+ Risk Events Identified
 - ✓ 30,000 Employees & Vulnerable Patients Protected

v1.9.01 ©2020 - WellEntry

The Problem: How do we assess the real-time wellness of our workforce in order to promote business continuity?

WellEntry's Solution: WellEntry's data analytics and notification platform provides leaders with real-time population health intelligence.

- ✓ Who has been screened?
- ✓ Who has not been screened?
- ✓ Alerts for employees at risk
- ✓ Reports to fulfill local, state and national requirements

The Problem: How do we accommodate increasing legislative requirements for COVID screening data?

The Solution: WellEntry captures, retains, and alerts via our HIPAA and SOC 2 compliant platform, simplifying the notification and reporting process.

- ✓ Texas §558.408 (Emergency Rule for HCSSA Response to COVID-19)
- ✓ California AB 685 (Enhanced Enforcement and Employer Reporting Requirements)

AB 685

Compliance

“Provide a written notice to all employees, and the employers of subcontracted employees, who were on the premises at the same worksite as the qualifying individual within the infectious period that they may have been exposed to COVID-19 in a manner the employer normally uses to communicate employment-related information.” [6409.6.(a)(1)]

“Provide a written notice to the exclusive representative, if any, of employees under paragraph (1).” [6409.6.(a)(2)]

Requirement: Give Notice to Employees of Potential Exposure

The Solution: With WellEntry’s facility-level health-screening records, you can immediately generate a list of all employees, contractors, customers, and guests who entered the worksite during the period of potential exposure. Don’t scramble to figure this out retroactively. Just log in to the WellEntry dashboard and have the full list in seconds.

AB 685

Compliance

"If an employer or representative of the employer is notified of the number of cases that meet the definition of a COVID-19 outbreak, as defined by the State Department of Public Health, within 48 hours, the employer shall notify the local public health agency in the jurisdiction of the worksite of the names, number, occupation, and worksite of employees who meet the definition in subdivision (d) of a qualifying individual." [6409.6.(b)]

Requirement: Give Notice of Outbreaks to Local Public Health Agencies

The Solution: With WellEntry's customizable pre-screening questionnaires and automated records, you have the option to gather and track reports of confirmed cases of COVID-19. With WellEntry's real-time health analytics platform, you can instantly assess whether the state's threshold for a COVID-19 outbreak has been met, then report this to your local public health agency.

AB 685

Compliance

*“(A) Training for employees and supervisors relevant to preventing employee exposure to the hazard or to similar hazards.
(B) Procedures for discovering, controlling access to, and correcting the hazard or similar hazards.
(C) Supervision of employees exposed or potentially exposed to the hazard.
(D) Procedures for communicating to employees about the employer’s health and safety rules and programs.” [6432.(a)(1)(A)]*

Requirement: Demonstrate Reasonable Precautions

The Solution: When you choose WellEntry, you’re choosing to implement effective health-screening, self-recorded facility check-ins, and real-time population health analytics. You’re choosing to protect your employees, contractors, customers, and guests with measures that help you prevent exposure to COVID-19 and other infectious diseases. You’re choosing to track health data and monitor real-time analytics in order to contain any outbreaks before they can spread.

The health of your team is on the line. It's critical that corporations choose a health-screening solution that is **effective**, **efficient**, and **secure**.

- ✓ Privacy and Compliance
- ✓ Data Security and Retention
- ✓ Analytics and Intelligence
- ✓ Ease of Use and Efficiency

And post-COVID-19?

Most WellEntry clients confirm they will continue to use WellEntry's health-screening solution even after the pandemic has passed.

They want to maintain a safer, healthier, more productive work environment year-round by screening for seasonal health risks such as influenza.

“

When you feel safe, you can serve better.
